PROFILE

I seek a job as a react js developer in a company where I can use my knowledge of Front-end and react js . I wish to contribute towards organizational goals through my technical skills, hard work and creativity.

WORK EXPERIENCE

Reat js developer

2023-2023

Sparks To Idea

During my one-month stint at Sparks to idea, I immersed myself in the realm of React.js, gaining hands-on experience and insights into front-end development. I contributed to projects, honing my skills in crafting responsive and user-friendly interface. This brief yet intensive experience heightened my proficiency in React.js, fostering a solid foundation for my future endeavors in web development. Excited to apply this knowledge and build on my skills in dynamic and collaborative environments.

PERSONAL PROJECT

News-webApplication(06/2023 - Present)
